Environmental Services

Compliance Management

EMS/EHSMS

EM-Assist's staff of industry-leading ISO 14001 and EMS experts includes RAB/QSA Certified Auditors, trainers, and implementers. Tom Welch, P.E., LEED-AP, EMS-LA, leads EM-Assist's EMS practice and authored the book *Moving Beyond Environmental Compliance - A Handbook for Integrating Pollution Prevention and ISO 14000*. Mr. Welch is widely regarded as one of the country's foremost experts on EMS for federal facilities.

Federal and commercial industrial entities can implement an ISO 14001-based **Environmental Management System (EMS)** to reduce operating costs and liabilities, while improving their public image and competitive edge. EM-Assist's capabilities have been proven with the full combination of implementation, auditing, and continual improvement services across multiple federal and industrial client settings. This broad experience by our staff of industry leaders in ISO 14001 and EMS helps clients achieve their objectives despite the budget constraints that they may face in today's environment. Our approach to these services puts our clients on the road to long-term environmental sustainability, continuous improvement, and ISO 14001 Certification.

| Environmental Services                |   |
|---------------------------------------|---|
| Compliance Management                 |   |
| Environmental Management Systems      |   |
| Planning, Implementation, Improvement | Information Management Solutions              |
| Reducing Operational Costs and Risks  | Systems Integration (Quality, Safety, Energy) |
| Auditing and Assessments              | Corrective Actions                            |
| Training and Outreach                 | ISO 14001 Certification                       |

Some clients have integrated their environmental programs with health and safety. Fortunately, EMS will bring the same benefits to Health and Safety and the EM-Assist approach will create a sustainable **Environmental, Health and Safety Management System (EHSMS)** for clients who want it.

EM-Assist's EMS/EHSMS clients include the U.S. Air Force, the U.S. Army, the U.S. Marine Corps, the National Guard, the Army Reserves, and the Department of the Interior. More specific examples of our work include the following:

- › Developed and improved over 100 different EMS/EHSMS programs across federal and commercial industrial clients, from very large and complex facilities to small National Guard Units.
- › Applied Microsoft® SharePoint® software tools (including EM-Assist's own EMS Module) to simplify document management, program control, measurement, and decision making.
- › Designed, implemented, and now maintaining the EMS at Hill Air Force Base in Utah, one of the world's largest military complexes with over 20,000 personnel and seven Operational Wings.
- › Helped the Army's Dugway Proving Ground put their self-declaration of EMS conformance in place, created a facility training plan and EMS courses, and developed their Internal EMS Audit and Installation Corrective Action Plan (ICAP).
